Listen to "Anime" → Spotify

"Anime" is a pop-rock song dedicated to those who stay kind in a world that isn’t. It tells the story of people who trust, give too much and end up disappointed, yet find the strength to turn anger and disappointment into something better. The chorus, *"E adesso portami via"* ("And now take me away"), is a cry of release from false illusions and from those who always want more.

> *“I wrote "Anime" after one disappointment too many. It’s dedicated to everyone who gives others more than they get back: you don’t have to stop being kind, you just have to remember to be kind to yourself too.”*
